Dentists who have been elected into Fellowship in the International College are busy individuals who have and continue to contribute to their profession and community. Busy people seem to find time to add one more item to their daily agendas. This edition of *The Pass Key* is a call to the Maryland Chapter to support the April 2009 Continuing Education Conference XXVI at Baltimore's Marriott Waterfront Hotel.

Regent Mike Kenney and Deputy Regent Ed Morris are proud to have this annual event in our own home state of Maryland. Let's support the leadership of our Chapter by attending some portion of the meeting that can be a significant show of support for their work as well an indication of your personal appreciation to have been invited into such a fine organization as the International College of Dentists.

Here is a summary of the events for your consideration:
