

Good Morning Moody

I really like the way this venue allows a different atmosphere to enhance the student's overall growth ... and I like having the opportunity to relate to them on a more personal level. It helps to convey that we are walking alongside them on this journey and I think it provides another element to this comprehensive experience of BECOMING a dentist... unlike anything else. I'm glad you are pleased with the way things are going.

And yes, they really did have a good time and I really liked the way they just kept hanging out and "drinking in" all of the real world expertise that only dentists in private practice can provide. So thank you for giving so generously and openly to our predoc students here at BCD!

Best regards,

Beverly
